

**VILLAGE OF OAK PARK
TRANSPORTATION COMMISSION MEETING
TUESDAY, JANUARY 12, 2021 - 7:00 PM**

SPECIAL NOTE - The Village President has determined that an in-person meeting is not practical or prudent due to the COVID-19 outbreak during the Governor's disaster proclamation. It is not feasible to have a person present at the regular meeting location due to public safety concerns related to the COVID-19 outbreak during the Governor's disaster proclamation. A special meeting is being conducted remotely with live audio available and optional video. The meeting will be streamed live and archived online for on-demand viewing at www.oak-park.us/commissiontv as well as cablecast on VOP-TV, which is available to Comcast subscribers on channel 6 and ATT Uverse subscribers on channel 99. Remote meetings of Oak Park Citizen Commissions are authorized pursuant to Section 6 of Governor J.B. Pritzker's Executive Order 2020-07, with limitations. Governor Pritzker's Executive Order allows for remote participation meetings by public bodies, but public bodies are "encouraged to postpone" meetings and should only hold meetings when "necessary." Executive Order No. 2020-07 (COVID-19 Executive Order No. 5) at Section 6. The Illinois Attorney General issued "Guidance to Public Bodies" regarding the Governor's Executive Order on April 9, 2020. In that guidance, the Attorney General states, "Where a public body does not have critical issues that must be addressed because time is of the essence, cancelling or postponing public meetings may be prudent during the COVID-19 outbreak, rather than holding meetings that could pose a risk of danger to the public." Thus, the test as to whether to hold a meeting is an issue to be discussed is "critical" that must be addressed immediately.

PUBLIC COMMENT - Oak Park Citizen Commissions welcome your statement to be read into the public record at a meeting. Public statements of up to three minutes will be read into the record during Non-Agenda public comment or Agenda Item public comment, as an individual designates. Statements will be provided to the Commission members in their entirety as a single document. Please follow the instructions for submitting a statement provided below. Questions regarding public comment can be directed to (708) 358-5672 or email clerk@oak-park.us.

Non-Agenda public comment is a time set aside at the beginning of each Citizen Commission meeting for public statements about an issue or concern that is not on that

Please call (708) 358-5724 if you are unable to attend

Also, follow us on *facebook*, *twitter* and *YouTube*.

If you require assistance to participate in any Village program or activity, contact the ADA Coordinator at (708) 358-5430 or e-mail building@oak-park.us at least 48 hours before the scheduled activity.

meeting's agenda. Individuals are asked to email statements to transportation@oak-park.us to be received no later than 60 minutes (6:00 PM) prior to the start of the meeting. If email is not an option, you can drop comments off in the Oak Park Payment Drop Box across from the entrance to Village Hall, 123 Madison Street, to be received no later than 5 PM on the day of the Commission meeting. Agenda item public comment will be limited to 30 minutes with a limit of three minutes per statement. If comment requests exceed 30 minutes, public comment will resume after the items listed under the agenda are complete.

AGENDA

1. Call to Order
2. Non-Agenda Public Comment - Up To 15 Minutes
3. Agenda Approval
4. Approval of Draft Transportation Commission Meeting Minutes
 - 4.1 October 28, 2020 draft Transportation Commission meeting minutes
5. PETITION TO INSTALL A TRAFFIC CALMING DEVICE ON THE 800 BLOCKS OF NORTH CUYLER AND NORTH HARVEY AVENUES
 - 5.1 Staff Agenda Item Commentary and Background Information
 - 5.2 Petitions and Letters of Explanation
 - 5.3 Written Public Testimony
 - 5.4 Scoring Tables for the 800 Blocks of North Cuyler & North Harvey Avenues
 - 5.5 Aerial View of the 800 Blocks of North Cuyler & North Harvey Avenues and Neighboring Area
 - 5.6 Speed & Volume Data for 800 Blocks of North Cuyler & North Harvey Avenues
 - 5.7 AM & PM Turning Movement Counts for the Division/Cuyler, Division/Harvey, Thomas/Cuyler, and Thomas/Harvey Intersections
 - 5.8 Collision Diagrams for the Division/Cuyler, Division/Harvey, Thomas/Cuyler, and Thomas/Harvey Intersections
 - 5.9 Traffic Calming Toolbox Matrix Table
 - 5.10 Letter to the Area Residents

Please call (708) 358-5724 if you are unable to attend

Get the latest Village news via e-mail. Just go to www.oak-park.us and click on the *e-news* icon to sign up.

Also, follow us on *facebook*, *twitter* and *YouTube*.

If you require assistance to participate in any Village program or activity, contact the ADA Coordinator at (708) 358-5430 or e-mail building@oak-park.us at least 48 hours before the scheduled activity.

6. PETITION TO REMOVE DAYTIME PARKING RESTRICTIONS ON THE 600 CLARENCE AVENUE BLOCK

6.1 Staff Agenda Item Commentary and Background Information

6.2 Petition and Letter

6.3 Letter to Area Residents

7. OTHER ENCLOSURES

OE1 Progress Report of the Implementation of the Slow Streets Pilot Program

OE2 Village Board of Trustees actions through 11/23/2020 regarding recent Transportation Commission recommendations

OE3 Staff reply to Transportation Commission Chair' January 6th inquiry

8. Adjourn

Please call (708) 358-5724 if you are unable to attend

Get the latest Village news via e-mail. Just go to www.oak-park.us and click on the *e-news* icon to sign up.

Also, follow us on *facebook*, *twitter* and *YouTube*.

DRAFT Meeting Minutes
Transportation Commission
Wednesday, October 28, 2020 - 7:00 PM
Remote Participation Meeting

1. Call to Order

Traffic/Transportation Engineer Jill Juliano called the remote participation meeting to order at 7:01 PM

Engineer Juliano read the following statement into the record:

"The Village President has determined that an in-person meeting is not practical or prudent due to the COVID-19 outbreak during the Governor's disaster proclamation. It is not feasible to have a person present at the regular meeting location due to public safety concerns related to the COVID-19 outbreak during the Governor's disaster proclamation."

Roll Call

Present: Camille Fink, Garth Katner, Meghann Moses, Aaron Stigger, James Thompson, Chair Ron Burke

Absent: none

Staff: Development Customer Services Director Tammie Grossman, Parking Restrictions Coordinator (PRC) Cinthya Calderon, Public Works Director John Wielebnicki, Police Chief LaDon Reynolds, Traffic/Transportation Engineer Jill Juliano, Staff Liaison Michael Koperniak

2. Non-Agenda Public Comment

None

3. Agenda Approval

Commissioner Stigger made a motion to approve tonight's agenda as presented.

Commissioner Katner seconded the motion.

The roll call vote was as follows:

Ayes -Stigger, Katner, Fink, Moses, Thompson, Burke
Nays - None

The motion passed unanimously 6 to 0.

4. Approval of the draft October 13, 2020 Transportation Commission meeting minutes

Commissioner Thompson made a motion to approve the draft October 13, 2020 Transportation Commission meeting minutes as presented.

Commissioner Fink seconded the motion.

The roll call vote was as follows:

Ayes -Thompson, Fink, Katner, Moses, Stigger, Burke
Nays - None

The motion passed unanimously 6 to 0.

5. STAFF'S RECOMMENDATIONS REGARDING OVERNIGHT PARKING OPTIONS

Development Customer Services Director Grossman gave a presentation. She spoke about:

- The Transportation Commission's recommendations for evening parking restrictions on the 1150 Wisconsin Avenue block, the 1150 S. Cuyler Avenue block, as well as a staff recommendation to install evening parking restrictions on the 1150 Highland Avenue block, are all tentatively on the November 2nd Village Board of Trustees meeting agenda.
- The history of relaxing daytime and overnight parking restrictions during the current COVID-19 health pandemic including the temporary lifting of the overnight on-street parking ban.
- At the request of the Village Board, Staff developed two recommendations:
 1. Expand the overnight on-street permit parking zones.
 2. Expand the overnight parking pass program from 10 passes to 15 passes per month between April 1st and October 31st.
- How the Transportation Commission came to be reviewing Staff's recommendations at this meeting.

- The fact that some overnight on-street permit parking holders have to walk long distances between their car and their home.
- The question of is the overnight parking ban still important to the Village in light of not having it during the pandemic.
- The fact that overnight permit passes never sell out.
- The primary problem appears to be the location of the permit parking spaces in relation to the user's homes as opposed to the lack of quantity of permit parking spaces.

Oak Park Police Chief LaDon Reynolds gave his views on why he supports the overnight on-street parking ban:

- He spoke about the theory and practice of Crime Prevention Through Environmental Design (CPTED) and its benefits in reducing crime.
- Streets without parked cars reduce several types of crimes because of police officers being able to clearly see down the street in low light conditions.
- It makes it easier to identify parked vehicles that shouldn't be there.
- Aids in improving quality of life issues in the Village due to open at night out-of-town-businesses along the Village borders.
- The lack of parked vehicles allows for the better positioning of emergency response vehicles during the night.
- The installation of additional cul-de-sacs would not noticeably reduce crime rates.
- It's not easy to quantify if the temporary lifting of the overnight on-street parking ban has caused an increase in crime rates because lots of factors come into play including that there is less foot traffic during the night because there are less people walking during the pandemic.

Public Works Director John Wielebnicki gave his views on the overnight on-street parking ban in relation to providing street maintenance services including year-round street sweeping, the fall leaf pickup program, and snow removal.

- There is a difference in the level of services in areas with the ban versus areas that allow overnight on-street parking.

- Adding additional parking spaces in the overnight permit parking zones will impact the delivery of services.
- He supports the Staff recommendations about expanding the zones but acknowledges that there will be challenges to providing adequate services.
- Providing an acceptable level of service is key and he believes that this can be achieved.
- He gave a brief history of the Village's street lighting system.
- He briefly discussed the composting of the collected leaves and how some of it is returned to the Village as topsoil and provided free of charge to its residents.

DCS Director Grossman gave a brief introductory presentation on the second recommendation to expand the overnight parking pass program to include 5 free and 10 paid passes per month.

DCS Director Grossman and PRC Calderon gave a visual presentation using maps showing the locations of the proposed additional parking spaces in the sixteen overnight on-street permit parking zones.

During the presentation, Staff and the Commission engaged in discussions about:

- Increasing the allowable parking buffer around R7 zoned areas from 500 feet to 750 feet.
- Placing the additional parking spaces in front of multi-family homes and not in front of single-family homes.
- The placement of some additional parking spaces and the reasons for why they were placed where they were.
- The pros and cons of adding overnight on-street parking spaces adjacent to Barrie Park and to Rehm Park.
- Confirmation that Police Chief Reynolds does support expanding the overnight on-street permit parking zones after reviewing the locations with DCS Director Grossman.
- The issue of parking space supply and demand.

- The advantage of a mission statement on the use of cars and bicycles helping this issue.
- The issue of homeowners versus renters in terms of car parking.
- The overnight parking ban has a 50/50 positive/negative feedback rate from recent Village surveys.
- The reasons for and against the ban including that some blocks are fully parked up and residents of the block can't find a place to park, that strange cars park on the block, and that some cars are parked for extended periods of time.
- The pros and cons of extending the lifting of the overnight on-street parking ban.
- The hesitancy on the Commission's part to recommend specific parking locations.
- The Staff recommendations are based in part on received complaints from residents.
- The results of parking restrictions changes in the Parking Pilot Program area.
- The Staff recommendations add approximately 200 parking spaces but do not involve offering any additional parking permits.
- The effects of removing some proposed parking spaces for various reasons.
- How to test a proposal to allow permit holders to park anywhere in permit parking zones and when is the best time to have a discussion about this proposal.
- The Village's past history and future likely hood of purchasing land to expand off-street parking.

Commissioner Thompson made a motion to:

1. Support the Staff recommendation to expand the size of the Y6 and Y7 overnight on-street permit parking zones and,
2. To expand the number of available parking spaces within the overnight on-street permit parking zones except for adjacent to Barrie Park and Rehm Park and except for miscellaneous 1 and 2 space locations after review of these miscellaneous locations by Staff and,

3. To not sell any additional overnight on-street parking permits.

Commissioner Katner seconded the motion.

The roll call vote was as follows:

Ayes - Thompson, Katner, Fink, Moses, Stigger, Burke

Nays - None

The motion passed unanimously 6 to 0.

The Commission recommended but did not include in the motion a proposal to reevaluate the Parking Pilot Program and to consider what can be done to make residents less dependent on automobiles.

DCS director Grossman gave a detailed presentation on the second Staff recommendation to expand the overnight parking pass program from 10 passes to 15 passes per month between April 1st and October 31st. This would include five free passes and ten paid passes per month per license plate.

The Commission and Staff engaged in a discussion which involved the following:

- The reasons behind expanding to fifteen passes and under what circumstances they could be used.
- The passes would be available for any resident or non-resident license plate and could be purchased by anyone.
- The reason why fifteen passes is the preferred number of passes per month.
- The pros and cons of offering five free and ten paid passes versus some other combination.

Commissioner Moses made a motion to support the staff recommendation to expand the overnight parking pass program to fifteen passes per month during the period between April 1st and October 31st except that it should be three (3) free passes and twelve (12) paid passes per month per license plate.

Commissioner Thompson seconded the motion.

The roll call vote was as follows:

Ayes: Moses, Thompson, Fink, Katner, Stigger, Burke
Nays: None

The motion passed unanimously 6 to 0.

PRC Calderon proceeded to read aloud both non-agenda and agenda written public testimony received after the agenda packet was published. This public testimony is attached to these meeting minutes.

6. ADJOURN

There being no further business, Commissioner Stigger made a motion to adjourn the meeting.

The motion was seconded by Commissioner Moses.

The roll call vote was as follows:

Ayes: Stigger, Moses, Fink, Katner, Thompson, Burke
Nays: None

The motion passed unanimously 6 to 0.

The meeting was adjourned at 9:30 PM.

Village Of Oak Park
Transportation Commission Agenda Item

Item Title:	Petition for the Implementation of Traffic Calming Devices on the 800 blocks of North Cuyler and North Harvey Avenues
Review Date:	<u>January 7, 2021</u>
Prepared By:	<u>Jill Juliano</u>
Abstract (briefly describe the item being reviewed): On October 1, 2018, the Village of Oak Park received a petition to install a traffic calming device on the 800 block of North Cuyler Avenue. Resident concerns include: vehicular traffic using the block to bypass waiting at the signalized intersection of Division Street and Ridgeland Avenue, speeds with which these vehicles travel on the block and possibly endangering the safety of the residents, bystanders and parked vehicles. On June 29, 2019, the Village of Oak Park received a petition to install a traffic calming device on the 800 block of North Harvey Avenue. Resident concerns include: vehicle speed and volumes, vehicles use the block as a bypass to the Division Street and Ridgeland Avenue signalized intersection. At tonight's meeting, staff will present the collected traffic data, and public testimony will be taken. The Transportation Commission may concur with staff's recommendation or make a different recommendation.	
Staff Recommendation(s): Staff is recommending to implement portable speed radar signs or speed wagons on an intermittent basis to maintain vehicle speeds at or near the posted speed limit.	
Supporting Documentation Is Attached	

Memorandum

0121-1

5.1

2/6

Date: January 7, 2021

To: The Transportation Commission

From: Jill Juliano, Transportation Engineer JJ

Re: Background Information Related to the Petitions for the Implementation of a Traffic Calming Device on the 800 blocks of North Cuyler and Harvey Avenues

Petition Submittal for the 800 Block of North Cuyler Avenue

On October 1, 2018, the Village of Oak Park received a petition to install a traffic calming device on the 800 block of North Cuyler Avenue. Residents representing 48.32% of the street frontage on the petitioning block signed the petition. The Village notified the organizer of the need for additional signatures. Additional signatures were obtained on the petition and resubmitted to the Village on March 16, 2019. Residents representing 70.81% of the street frontage on the petitioning block signed the petition. The petition was certified as a valid petition.

Reasons provided for the petition include: concern about vehicular traffic using the block to bypass waiting at the signalized intersection of Division Street and Ridgeland Avenue, the speeds these vehicles travel on their block, and possibly endangering the safety of the residents, bystanders and the cars parked on the block. See Exhibit 5.2, pages 1-3 for a copy of this petition and accompanying letters of explanation. The petition was placed in the queue awaiting traffic data collection.

Petition Submittal for the 800 Block of North Harvey Avenue

On June 29, 2019, the Village of Oak Park received a petition to install a traffic calming device on the 800 block of North Harvey Avenue. Residents representing 36.19% of the street frontage on the petitioning block signed the petition. The Village notified the organizer of the need for additional signatures. Additional signatures were obtained on the petition and resubmitted to the Village on September 8, 2019. Residents representing 53.02% of the street frontage on the petitioning block signed the petition. The petition was certified as a valid petition.

Reasons provided for the petition include: vehicle speed and volumes, vehicles use the block as a bypass to the Division Street and Ridgeland Avenue signalized intersection. See Exhibit 5.2, pages 4-6 for a copy of this petition and accompanying letter of explanation. The petition was placed in the queue awaiting traffic data collection.

See Exhibit 5.3 for written public testimony received by the Village of Oak Park regarding these petitions. There are 3 emails in support of a traffic calming measure on the 800 block of North Cuyler Avenue.

A directional forty-eight hour traffic volume and speed study was conducted on February 19 and 20, 2020 for the 800 blocks of North Cuyler, North Harvey and Mapleton Avenues. See

Memorandum

0121-1

5.1

3/6

Exhibit 5.6 pages 1-2 for a summary of the results. The source data is included in Exhibit 5.6 pages 3-20. Peak hour turning movement counts (TMC) were also collected on Wednesday, February 19, 2020 for the following intersections: Cuyler Avenue & Division Street, Cuyler Avenue & Thomas Street, Harvey Avenue & Division Street, and Harvey Avenue & Thomas Street. See Exhibit 5.7 pages 1-2 for a summary of the TMC results. The source data is included in Exhibit 5.7 pages 3-10. Additional supplemental traffic data for the two petitioning blocks was collected on March 10 and 11, 2020.

Collision diagrams for the intersections of Cuyler Avenue & Division Street, Cuyler Avenue & Thomas Street, Harvey Avenue & Division Street, and Harvey Avenue & Thomas Street were generated. See Exhibit 5.8 for the four collision diagrams.

Next, staff completed a scoring table for both traffic calming petitions. See Exhibit 5.4 for the scoring tables. A numerical score is calculated for six measures that are the typical reasons for a petition to be submitted. The maximum possible score is 100 points. A minimum score of 25 points is required to bring a petition before the Transportation Commission.

The total score for the 800 block of North Cuyler Avenue petition is 46 points. The total score for the 800 block of North Harvey Avenue petition is 45 points. Scores for both petitions exceed the minimum score necessary to submit the petition to the Transportation Commission for review and recommendation.

Exhibit 5.5 is a digital aerial image of the petitioning blocks and the surrounding area. Identified in the exhibit are the following: Taylor Park, Whittier Elementary School, the Division Street and Ridgeland Avenue signalized/offset intersection and the 800 blocks of North Cuyler, North Harvey and Mapleton Avenues.

Reviewing the 24-hour volumes for all three blocks studied (Exhibit 5.6), the two-way average daily traffic (ADT) ranged from a low of 182 vehicles on 800 block of Mapleton Avenue on February 20, 2020 to a high of 391 vehicles on 800 block of North Cuyler Avenue on February 19, 2020. The volumes for all blocks studied fall below the 800 to 1,200 vehicle range for typical daily volume on residential blocks within the Village of Oak Park.

Village staff looked through its historical data and found in September 2003 ADT volume and speed data was collected for the 800 block of N Cuyler Avenue. For the 24 hour time period of September 18, 2003, there were 133 northbound vehicles, and 337 southbound vehicles; for a total of 470 cars traveling on the block. For September 19, 2003, there were 144 northbound vehicles and 344 southbound vehicles; or a total of 488 vehicles traveling on the block. This helps to confirm the traffic data collected in 2020.

Based on the collected traffic data, it does not appear there is an excessive volume of vehicles traveling on the petitioning blocks.

Memorandum

0121-1

5.1

4/6

Regarding vehicular speeds, it is an accepted traffic engineering practice to set the speed limit to the 5 mile per hour (mph) increment above or below the 85th percentile speed. Village Staff holds the opinion that the majority of drivers will drive at or near the posted speed limit. In addition, it is an accepted fact that the speed indicated on speedometers can vary up to 2 percent above or below the actual speed of the vehicle.

By definition, the 85th percentile speed is the speed at which 85 percent of the vehicles are traveling at or less than. Conversely, 15 percent of the vehicles will be traveling faster than the 85th percentile speed. It has already been stated that speed limits are typically set to the 5 mph increment above or below the 85th percentile speed. This implies that it is expected that approximately 15 percent of vehicles will be traveling faster than the speed limit, if the speed limit is in the 5 mph increment below the 85th percentile speed.

Next is the review of the vehicle speed data from the February 2020 traffic studies results for the 800 blocks of North Cuyler, North Harvey and Mapleton Avenues. The 85th percentile speeds for all blocks ranged between 28 mph and 30 mph. This is slightly elevated when compared to the 25 mph speed limit. From the September 2003 traffic study on the 800 block of North Cuyler Ave, the 85th percentile speeds ranged between 29 and 30 mph which helps to reinforce the 2020 results.

As previously mentioned, it's expected that the majority of motorists will drive at or close to the speed limit and that speeds indicated on speedometers can vary above or below the actual speed of the vehicle. Consequently, the 85th percentile speeds calculated in this 2020 traffic study for the petitioning blocks is what staff would consider slightly elevated when compared to the 25 mph speed limit.

Based on the traffic studies conducted in 2020, there appears to be a slight speeding issue on the 800 blocks of North Cuyler and North Harvey Avenues.

Turning movement data was collected on February 19, 2020 for the peak hours (see Exhibit 5.7). Reviewing the data, approximately 50 vehicles traveled on the 800 block of North Harvey Avenue during the AM peak hour while approximately 40 vehicles traveled on the 800 block of North Cuyler Avenue during both peak hours and on the 800 block of North Harvey Avenue during the PM peak hour. The additional cars on the 800 block of North Harvey Avenue during the AM peak hour may be a result of parents dropping off their children at school.

In March, staff collected movement data of vehicles traveling on the 800 blocks of North Cuyler and North Harvey Avenues during the peak hours. Specifically, staff watched each vehicle that traveled on the block to see what movement was made (left turn, thru or right turn) to access the block and what movement was made to exit the block. [An exhibit with the results will be provided at the Commission meeting.] Staff reviewed the results to see how many vehicles made the maneuvers that may imply the motorist was trying bypass the Division Street and Ridgeland Avenue signalized intersection compared to all vehicles that traveled on the block during a particular time period.

Memorandum

0121-1

5.1

5/6

For the 800 block of North Cuyler Avenue, 10 of the total 13 vehicles that traveled northbound on the block during the AM peak period made maneuvers that suggest the motorist maybe trying to avoid the Division Street and Ridgeland Avenue intersection. Of the 23 vehicles traveling southbound on the block during the AM peak period, 9 vehicles traveled a route that may imply the motorist is trying to evade the signalized intersection.

For the PM peak period, 8 of the 12 vehicles that traveled northbound on the 800 block of North Cuyler Avenue traveled a route that would suggest the motorist is trying to avoid the signalized intersection. Five of the 23 vehicles traveling southbound on the block took a path that suggests avoiding the Division Street and Ridgeland Avenue intersection.

For the 800 block of North Harvey Avenue, during the AM peak period, 4 out of 16 northbound vehicles and 4 out of 24 southbound vehicles made movements that would suggest the motorist may be trying to avoid the signalized intersection. Staff noted that 8 northbound vehicles and 14 southbound vehicles that were traveling on the block during the AM peak period were dropping off Whittier School students.

For the PM peak period, 7 of the 15 northbound vehicles and 8 of the 15 southbound vehicles on the 800 block of North Harvey Avenue were traveling a route that may imply the motorist is trying to bypass the Division Street and Ridgeland Avenue intersection.

Next, thirty-six months of vehicle crash reports covering the period of July 1, 2017 through June 30, 2020 were reviewed for the 800 blocks of North Cuyler and North Harvey Avenues. Please see Exhibit 5.8 for the four collision diagrams.

The number of reported crashes that occurred at the Cuyler Avenue and Division Street intersection for the thirty-six months ended June 30, 2020 totaled one. It was a rear end collision in 2017 occurring on Division Street. The average daily traffic (ADT) for the intersection as determined as part of the Village's 1997 area-wide traffic study was 8,955 vehicles. From this data, the 2020 crash rate for the Cuyler Avenue and Division Street intersection is calculated to be 0.102 accidents per million entering vehicles (Acc/MEV).

This crash rate is below the critical crash rate calculated for the north section of the Village (from Augusta Street to North Avenue between Harlem Avenue and Austin Boulevard) as determined in the area-wide traffic study of 1997 (0.686 Acc/MEV). If an actual crash rate exceeds the critical crash rate then it is highly probable that the accidents were caused by factors other than chance.

The number of reported crashes that occurred at the intersection of Cuyler Avenue and Thomas Street for the same time period totaled one crash, an opposing side swipe on the 700 block of North Cuyler Avenue. The ADT for the Cuyler Avenue and Thomas Street intersection as determined as part of the 1997 traffic study was 1,000 vehicles. The 2020 crash rate for this intersection is calculated to be 0.913 Acc/MEV which is higher than the critical crash rate of 0.686 Acc/MEV. However, this high crash rate is due to the very low ADT rather than the probability of the crash was caused by factors other than chance.

Memorandum

0121-1

5.1

6/6

The number of reported crashes that occurred at the Harvey Avenue and Division Street intersection for the thirty-six months ended June 30, 2020 totaled two. Both crashes were right angle collisions. The ADT for the intersection as determined as part of the Village's 1997 area-wide traffic study was 9,006 vehicles. From this data, the 2020 crash rate for the Harvey Avenue and Division Street intersection is calculated to be 0.203 Acc/MEV which is again lower than the critical crash rate for the area.

The number of reported crashes that occurred at the intersection of Harvey Avenue and Thomas Street for the same time period totaled four crashes. The ADT for the Harvey Avenue and Thomas Street intersection as determined as part of the 1997 traffic study was 1,250 vehicles. The 2020 crash rate for this intersection is calculated to be 2.922 Acc/MEV which is higher than the critical crash rate of 0.686 Acc/MEV.

Three of the four crashes at the Harvey Avenue and Thomas Street intersection are vehicles hitting parked cars. One of these crashes was a car backing out of the alley striking a parked vehicle. The other two accidents were sideswipes; one on the 800 block of North Harvey Avenue and the other on the 700 block of North Harvey Avenue. The fourth crash is a single car crash which involved the car hitting a light pole. The driver of the car was charged with driving under the influence. So while this intersection's crash rate (2.922 Acc/MEV) is higher than the critical crash rate (0.686 Acc/MEV) it was due to the low ADT and crashes that would not be correctible with modifications to the intersection.

In conclusion, there does not seem to be a problem with vehicle crashes on the 800 blocks of North Cuyler and North Harvey Avenues.

Based on the traffic studies conducted and the crash history for the 800 blocks of North Cuyler Avenue and North Harvey Avenue, it appears there is a minor speeding issue on the petitioning blocks. Looking at the Traffic Calming Toolbox matrix table (see Exhibit 5.9), staff recommends to implement portable speed radar signs or speed wagons on an intermittent basis only to maintain vehicle speeds at or near the posted speed limit.

PETITION FOR TRAFFIC CALMING MEASURES

Date: 9/1 0121-1
5.2
1/6

We, the undersigned, respectfully petition the Transportation Commission to recommend to the Oak Park Board of Trustees that traffic calming measures be implemented:

on the 800 block of N. Cuyler Ave. or
at the intersection of _____ and _____
in the Village of Oak Park.

Traffic problems to be remedied by the use of traffic calming measures include:

- Excessive vehicle crashes 4
 - Excessive vehicle speeds 1
 - Excessive vehicle volumes 3
 - Pedestrian/Bicyclist safety issues 2
 - Other _____
- (rank these in order of importance with 1 being most problematic and 5 being least problematic)

* = This petition is being circulated by: (list name, address, and telephone number)

	Name	Address	Phone number	Email
1. *	Tracy Trumbell			
2.	Rebecca Ho			
3.	Kris Gallagher			
4.	Jason Pope			
5.	NK JENSEN			
6.	Robert Bezzett			
7.	Boyd Friesen			
8.	TRAE Tannantoni			
9.	Susan Shields			
10.	Dan Langer			
11.	Shaul Shit Fitcher			
12.	Jennifer Gleason			
13.	Patty Grunck			
14.	Rebekah Schroedel			
15.	Cynthia Chuala			

This petition should be signed by residents representing at least 51% of the street frontage where the traffic calming measures are being requested. Also, ATTACH A LETTER EXPLAINING WHY THIS PETITION IS BEING SUBMITTED.

PETITION FOR TRAFFIC CALMING MEASURES

Date 10/16

0121-1

5.2

2/6

We, the undersigned, respectfully petition the Transportation Commission to recommend to the Oak Park Board of Trustees that traffic calming measures be implemented:

on the 800 block of N. Cuyler Ave. or
at the intersection of _____ and _____
in the Village of Oak Park.

Traffic problems to be remedied by the use of traffic calming measures include:

- Excessive vehicle crashes _____
- Excessive vehicle speeds _____ (rank these in order of importance with 1
- Excessive vehicle volumes _____ being most problematic and 5 being least
- Pedestrian/Bicyclist safety issues _____ problematic)
- Other _____

The Transportation Commission
Attn: Jill Juliano
The Village of Oak Park
Public Works Center
201 South Boulevard
Oak Park, IL 60302

Dear Ms. Juliano and Members of the Transportation Commission,

This petition is being submitted on behalf of the 800 block of North Cuyler Avenue. The families have become increasingly concerned regarding the vehicular traffic using this block of North Cuyler Avenue to bypass waiting at the intersection of Division St. and Ridgeland Avenue. In addition to this concern, the families are also troubled by the speeds at which these "bypassing" vehicles travel down the block. With an increasing number of families of young children moving to the 800 block of North Cuyler Avenue, as well as longstanding families who enter and exit their cars parked on the street, it is unacceptable for vehicles to race by, endangering families, bystanders, as well as parked cars. Last year our beat officer, Anthony Coleman, suggested that we request a speed trailer to be placed at the corner of North Cuyler Avenue and Thomas St. (The families were informed that the speed trailer was not collecting any data.) While it may have been a deterrent during its time in place, the bypassing and speeding resumed once it was removed. The families of the 800 block of North Cuyler Avenue desire a permanent solution in order to keep the children and families safe.

Thank you for your time and consideration,

Tracy Trumbell

Re: Traffic Calming Measures

Dear Mrs. Juliano and Members of the Transportation Commission,

We the residents of the 800 block of North Harvey are submitting a petition for Traffic Calming Measures for four reasons:

1. **Speed of traffic.** Located just south of Division and 2 blocks west of Ridgeland, cars regularly use our block and Thomas street as a bypass to avoid the Division and Ridgeland intersection. This happens for both North and Southbound traffic. These cars regularly accelerate down the street at speeds approaching 50 mph. These vehicles also regularly ignore the stop signs at the intersection of Harvey and Thomas. It is only a matter of time before a serious accident results from this traffic.
2. **Excessive vehicle volume.** Not only to the loudly accelerating vehicles create excessive noise but the proximity of our block to Division Ave makes it a popular spot for non-block residents to park late at night while playing loud music in their cars.
3. **Pedestrian and bicycle safety.** As mentioned in the first point vehicles using the block as a bypass regularly ignore stop signs even when children are present. We also have several elderly and young cyclists who use the street.
4. **Safety.** This past May, 2019 there was an incident where two vehicles were traveling down Division AVE between 8 and 9 am firing guns at each other. This back and forth of gunfire continued until Harvey Ave where one vehicle looking to avoid the busy Ridgeland intersection flew down the 800 hundred block of Harvey. The incident highlights the reality of living close to a major thoroughfare that comes directly from some of the more underserved areas of Chicago. This shooting and reckless driving occurred shortly after school began at Whittier elementary which is at the end of our block. Had it happened just an hour early there could have been unbelievable tragedy. As shocking as it was this shooting was not the first issue, as our block is regularly used as an easily accessible location for drug drops and exchanges, often during weekdays.

We are requesting traffic calming measures for all of these reasons, but most importantly because we want to avoid any future tragedy or harm that will result from a failure to address this situation.

Sincerely, The residents of 800 North Harvey.

To: Jill Juliano, P.E. Transportation Engineer, Village of Oak Park

From: Jennifer Herron, [REDACTED]

Re: 1/12/2021 meeting of the Transportation Commission

Subj: Traffic Calming devise for the 800 block of North Cuyler

The intersection of Ridgeland/Narragansett and Division to our north is the intersection of two major commuter streets and a CTA bus route. Because Ridgeland takes an eastern jog as it continues north, the Village Traffic Engineers have had to create a fairly complex system of lights to ensure pedestrian safety.

Consequently, impatient commuters have discovered a way to cut around the long lights at this complex intersection. They frequently, and recklessly, zip through this “short cut,” racing down our block as they “beat the system.”

In consideration of “*Traffic Calming Measures Matrix*” ...

Please be aware that the north end of the 800 block of Cuyler is:

- across the street from Taylor Park
- and a CTA stop
- one block away from Hatch Elementary
- two blocks from a church;
- there has been at least one crash if not more at the intersection of Cuyler and Division and several at Ridgeland and Division

...AND that the south end of the block at Thomas is:

- one block away from Whittier Elementary, with a field also used for after school sports,
- one block away from a public library
- and that Thomas is considered a bike/pedestrian friendly street

...and we have cause for concern.

Also, the neighborhood has petitioned for traffic solutions to this dangerous issue.

Two speed bumps on the 800 block of Cuyler, one just south of Division and another turning from Thomas to Cuyler, would most certainly slow cut-through drivers and protect pedestrians and children playing in the area. Speed bumps might possibly deter some of the cut-through traffic as well. This seems like a reliable solution.

Please provide this safety measure for our block and to the pedestrians and bikers passing through.

Juliano, Jill

Subject: Petition for Traffic Calming Device for 800 block of North Cuyler

January 4, 2021

From - Patrick Herron of [REDACTED], Oak Park

To - Jill Juliano, P.E. Transportation Engineer, Village of Oak Park

I am writing to you regarding the petition to install 'traffic calming device' on the 800 N. block of North Cuyler Avenue. Per the notification you mailed to my home, the Transportation Commission will be reviewing this petition at its upcoming meeting on January, 12, 2021.

I live [REDACTED] south of the intersection of North Cuyler and Division, which is very near the intersection of Ridgeland and Division. Because of the way Ridgeland jogs around the corner of Taylor Park, North Cuyler nearly lines up with Ridgeland north of Division. **The root of the problem is drivers seeking to save a few seconds by avoiding the traffic light at Ridgeland and Division.**

Every morning during rush hour, dozens of cars headed northbound on Ridgeland cut east on Thomas and then speed north on North Cuyler to avoid the traffic light at Ridgeland and Division. These cars then make a dangerous left turn from North Cuyler onto westbound Division, and then immediately turn right onto northbound Ridgeland. This 'shortcut' shows up on Google Maps and Waze as the fastest way to proceed on northbound Ridgeland during rush hour.

A similar scenario plays out during evening rush hour. Cars headed west on Division seeking to turn south onto Ridgeland 'cut through' by turning onto North Cuyler, speeding south to Thomas, then west on Thomas to turn south onto Ridgeland. This way they avoid the light at Ridgeland and Division.

These speeding cars using our neighborhood street as a 'shortcut' are not just a nuisance, they are a danger to the people, especially kids, who live on North Cuyler.

I ask the Traffic Commission to grant us a 'traffic calming device' to solve these issues. Three ideas for your consideration:

A. Reconfigure the intersection of North Cuyler and Division to only allow a right turn from North Cuyler onto Division. And to prohibit turns from Division from either direction onto North Cuyler. This is my preferred solution.

B. Install a 'No Left Turn' sign on North Cuyler at Division to prohibit cars from cutting up North Cuyler to get to North Ridgeland while avoiding the light at North Ridgeland and

Division. And a 'No Left Turn' sign on Division just east of North Cuyler to prohibit cars on Division from cutting down North Coyer to get North Ridgeland while avoiding t at North Ridgeland and Division. If these specified from 7:00 am to 7:00 pm, or j am to 9:00 am and 4:00 pm to 7:00 pm; Monday to Friday; that would help. Not tha change behavior all that much.

0121-1

5.3

3/4

C. A couple of nice big speed bumps on the 800 block of North Cuyler. This is a cheap and effective solution that will repel repeat offenders from zooming up and down North Cuyler just to save a few seconds at the light at Ridgeland and Division.

Thank you for inviting comments from the people petitioning the Traffic Commission. Please do not hesitate to call me if I've not been clear or if you have any questions.

Sincerely,

Patrick Herron

Subject: Testimony on traffic calming measures for 800 block of N. Cuyler Ave.

Dear Transportation Commission Members,

I have lived at [REDACTED] since 1999. I am located [REDACTED] houses south of the three-way intersection at Division and Ridgeland. As long as I have lived here, I have seen drivers speeding up and down our street, attempting to avoid stopping at that intersection or to get ahead of other cars that stayed in the traffic flow controlled by the lights. And, as long as I have lived here, residents of this block have petitioned the village for traffic calming measures.

Cars frequently make high-speed left turns from westbound Division onto southbound Cuyler and then continued at high speed to Thomas, where they make a high-speed right-hand turn and then attempt to turn south on Ridgeland before cars that waited for the light (complete with roaring engines and squealing tires). A second problem group is cars that are northbound on Ridgeland that turn eastbound onto Thomas and then north on Cuyler with the intent of avoid the intersection and turning east on Division. The third group is cars that are southbound on Division before they reach the intersection at Ridgeland, which make a shallow left turn onto Division and then a hard right onto southbound Cuyler. These cars routinely drive 40 mph or more, far too fast to avoid a child or even maintain good visibility down this residential street.

I cannot count the number of times that I parked in front of my home and nearly lost my car door--and even my life--to speeding drivers that were not even on my street when I pulled to the curb. My dog was hit by one such car WHILE she was on a leash and walking with me through the crosswalk at Division and Cuyler. My sons, on bicycles, have been run off the street and onto the grass by speeding drivers. My neighbors have lost dogs. Only by the grace of God have we not lost a child.

The modest homes on our block are popular among families with small children. These children grow, as mine did, to become bike riders, to walk to school at Whittier Elementary School, to catch the bus to Gwendolyn Brooks Middle School, to visit Dole Library, or to go to Taylor Park. That is why we have petitioned so long for calming measures. Families may come and go, but there always will be small children on this block who are at risk. Temporary speed bumps and signs that measure drivers' speed make little difference.

My preferred measure would be a partial closure of Cuyler that would only allow east-bound turns from Cuyler on to Division. This would thwart the speeding southbound drivers. I also suggest yet another stop sign, this time at Cuyler and Thomas, that would deter drivers who are northbound on Ridgeland from considering Thomas, Cuyler and Harvey as "short cuts."

Thank you for considering my testimony.

Kris Gallagher

TO: RESIDENTS OF THE 700 & 800 BLOCKS OF N. CUYLER AVE., N. HARVEY AVE., AND 800 BLOCK OF MAPLETON AVE.

RE: PETITIONS TO INSTALL TRAFFIC CALMING DEVICES ON THE 800 BLOCKS OF NORTH CUYLER AVENUE AND NORTH HARVEY AVENUE

Dear Resident:

The Village of Oak Park received a petition to install a traffic calming device on the 800 block of North Cuyler Avenue. Subsequently, the Village of Oak Park received another petition to install traffic calming device on the 800 block of North Harvey Avenue. Due to their proximity, the submitted and certified petitions for traffic calming devices will be reviewed together by the Transportation Commission at its upcoming January 12th meeting.

The Transportation Commission review will be considering traffic calming measures from the Village's Traffic Calming Toolbox that do not restrict access. Below is the URL address to the Village's webpage showing a matrix of the 32 traffic calming measures in the Toolbox:

https://www.oak-park.us/sites/default/files/public-works/matrix_table.pdf

Transportation Commission is scheduled to review this petition remotely at 7:00 PM on Tuesday, January 12, 2021. The meeting will be streamed live and archived online for on-demand viewing at www.oak-park.us/commissiontv as well as cablecast on VOP-TV, which is available to Comcast subscribers on channel 6 and ATT Uverse subscribers on channel 99.

The Transportation Commission welcomes your public testimony at this meeting. You may wish to submit your comments in writing or verbally during the remote meeting. Please note: a resident from the petitioning block, typically the petition organizer, will join the remote meeting to provide public testimony.

To provide **public testimony in writing** please send it to the undersigned by U.S. mail, by fax to (708) 358-5711 or by email at transportation@oak-park.us. All comments must be received by Thursday, January 7, 2021 at 12:00 noon for inclusion in the Commission's agenda. Any comments received after this date will be read into the record at the Transportation Commission meeting.

To provide **public testimony during the remote meeting**, please send an email to transportation@oak-park.us requesting instructions how to give public testimony during the remote meeting. Type "Request for Instructions – Public Testimony at Remote Meeting" in the subject line of your email. An email with the instructions will be sent to you the day of the remote meeting.

A copy of the Commission's agenda will be posted on the Village of Oak Park's website (www.oak-park.us) for public review and inspection. Look for the agenda on the website after 5:00 PM on Friday, January 8th.

Sincerely,

THE VILLAGE OF OAK PARK

Village Of Oak Park
Transportation Commission Agenda Item

Item Title: Petition to Remove Daytime Parking Restriction on 600 block of Clarence Avenue.

Review Date: January 12, 2021

Prepared By: Tammie Grossman

Abstract (briefly describe the item being reviewed):

On December 14, 2020, the Parking and Mobility Services Division received a parking petition signed by residents of the 600 block of Clarence Avenue requesting the removal of the "No Parking 8 AM – 10 AM Monday – Friday" parking restriction from that block.

In order to qualify for approval of restrictions changes, petitions need to be signed by residents representing 51% or more of the street frontage where the traffic regulations changes are being requested. This parking petition was signed by 68% of the block's residents.

Staff Recommendation(s):

Staff recommends the removal of the "No Parking 8 AM – 10 AM Monday – Friday" daytime parking restrictions from the 600 block of Clarence, as requested by the residents' petition.

See Documentation needed for this request.

MEMORANDUM

0121-1

6.1

2/2

Date: January 12, 2021

To: Transportation Commission

From: Tammie Grossman

Re: Staff recommendation to remove “No Parking 8 AM – 10 AM, Monday - Friday” from the 600 block of Clarence Avenue

Staff is recommending that the Transportation Commission approve the removal of current daytime parking “No Parking 8 AM – 10 AM, Mon-Fri” restrictions from the 600 block of Clarence Avenue.

These parking restriction on the 600 block of Clarence were installed previously following approval of three parking recommendations from the Parking & Traffic Commission for consideration by the Board of Trustees on July 16, 1998, related to Fenwick High School student parking in residential areas. The recommendations are listed below:

- A) A motion to approve installation of “No Parking 8 AM – 10 AM, Monday thru Friday” and “Two-hour parking 9 AM – 5 PM Monday thru Friday” restrictions on Adams Street between Euclid and Ridgeland.
- B) Motion to approve installation of “No Parking 8 AM – 10 AM Monday Thru Friday” in 600 blocks of South Elmwood, Gunderson, Scoville, Clarence and Wesley.
- C) Adopt ordinance to install “Staff/student permit parking 8AM – 4PM.” And “Resident only permit parking 8AM – 4PM Monday Thru Friday” at locations in 400, 500, 600 and 700 blocks of Pleasant, Randolph, Washington, and Adams, and 400 Block South Scoville Avenue.

In 2020, Fenwick High School completed the construction of their private parking garage, which will be utilized by students and staff. Fenwick High School students will no longer need to park on the street, and the school administration has not purchased any daytime on-street parking permits for the current school year. Staff recommends removing the daytime restrictions as requested by residents of the 600 block of Clarence Avenue.

December 4, 2020

Oak Park Transportation Commission

Dear Transportation Commission,

The residents of the block of 600 Clarence Ave want the convenience of parking on our street at all times, and so would like the special restriction on our block (8AM – 10AM MON – FRI) to be removed.

Sincerely,

Kevin Shalla

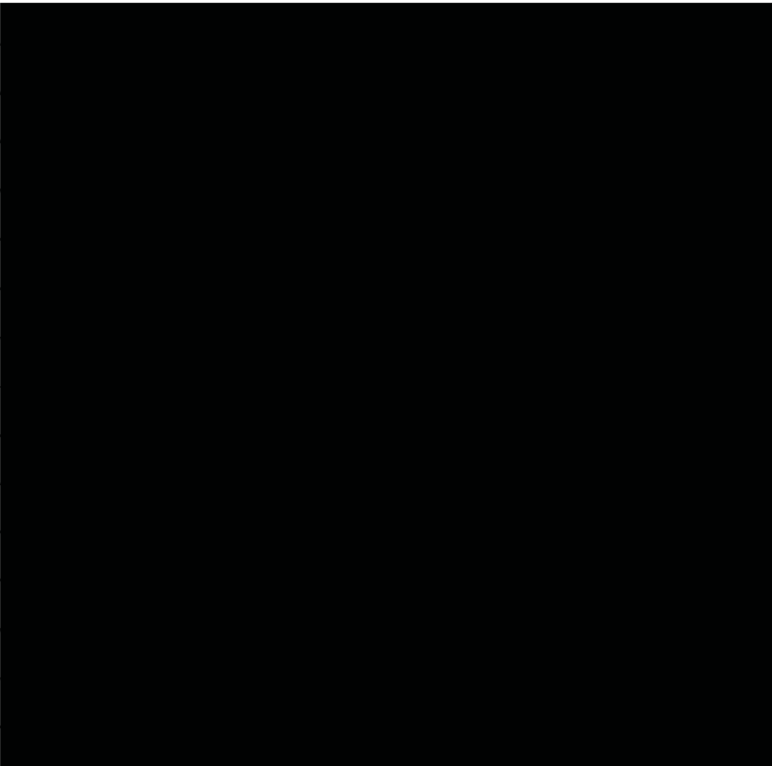

PETITION FOR PARKING RESTRICTIONS
(Non-Permitted)

We, the undersigned, respectfully petition the Transportation Commission to recommend to the Oak Park Board of Trustees that parking restrictions be ^{removed} established in the 600 block of Clarence Ave in the Village of Oak Park, Illinois.

We further petition the Commission to regulate parking in this manner: Remove the existing restriction (8AM-10AM MON-FRI)

We understand that these restrictions, if adopted by the Board of Trustees, will be enforced without any special parking privileges being granted to the residents on our block.

TO: RESIDENTS OF THE 600 BLOCK OF CLARENCE AVENUE

RE: PETITION TO REMOVE DAYTIME PARKING RESTRICTION ON THE EAST AND WEST SIDE OF THE 600 BLOCK OF CLARENCE AVENUE.

Dear Business Owner and/or Resident:

The Village of Oak Park has received a petition to remove the existing parking restriction “No Parking 8 AM – 10 AM Monday – Friday.”

The Transportation Commission is scheduled to review this petition remotely at 7:00 PM on Tuesday, January 12, 2021. The meeting will be streamed live and archived online for on-demand viewing at www.oak-park.us/commissiontv as well as cablecast on VOP-TV, which is available to Comcast subscribers on channel 6 and ATT Uverse subscribers on channel 99.

Oak Park Citizen Commissions welcome your statement to be read into the public record at the meetings. If you wish to provide any comments regarding the petition, you may submit your comments in writing to the undersigned by U.S. mail, by fax to (708) 434-1600, or by email at transportation@oak-park.us. All comments must be received by Thursday, January 7, 2021, at 12:00 noon for inclusion in the commission’s agenda. In addition, a resident of the block, will join the remote meeting on January 12, 2021, to provide public Testimony.

A copy of the Transportation Commission's agenda will be posted on the Village of Oak Park’s website (www.oak-park.us) (“Your Government”, “Citizen Commissions”, “Transportation”) on Tuesday, January 12th after 5:00PM for public review and inspection.

Meeting Minutes

President and Board of Trustees

Monday, November 2, 2020

5:30 PM

Village Hall

I. Call to Order

Village President Abu-Taleb called the meeting to order at 5:32 P.M. He authorized a statement be read providing that the meeting is being held remotely due to COVID-19 restrictions and that it is not prudent to have people present at the Village Board's regular meeting location due to public health concerns related to that pandemic.

II. Roll Call

Present: 7 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, Village Trustee Taglia, and Village Trustee Walker-Peddakotla

Absent: 0

III. Consideration of Motion to Adjourn to Executive Session to Discuss Collective Bargaining

It was moved by Village Trustee Andrews and seconded by Village Trustee Moroney to enter into executive session pursuant to 5 ILCS 120/2(c)(21) - approval of executive session minutes; and 5 ILCS 120/2(c)(2) - discussion of collective bargaining matters. The motion was approved. The roll call on the vote was as follows:

AYES: 7 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, Village Trustee Taglia, and Village Trustee Walker-Peddakotla

NAYS: 0

ABSENT: 0

V. Reconvene to Remote Regular Meeting in Council Chambers and Call to Order

The Regular Meeting was reconvened at 6:32 P.M.

VI. Roll Call

Present: 6 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, and Village Trustee Taglia

Absent: 1 - Village Trustee Walker-Peddakotla

VII. Agenda Approval

This Resolution was adopted.

- I. [MOT 20-068](#) A Motion to Concur with the Transportation Commission's Recommendation to Adopt a "No Parking 10 PM-6 AM, Seven Days a Week Restriction" on the 1150 Block of Highland from the Alley North of Roosevelt Rd to Fillmore Street, on Both Sides, and Install Signage for Said Limitation
This Motion was approved.
- J. [MOT 20-069](#) A Motion to Concur with the Transportation Commission's Recommendation to Adopt a "No Parking 10 PM-6 AM, Seven Days a Week Restriction" on the 1150 Block of South Cuyler from the Alley North of Roosevelt Rd to Fillmore Street, on Both Sides, and Install Signage for Said Limitation
This Motion was approved.
- K. [MOT 20-070](#) A Motion to Concur with the Transportation Commission's Recommendation to Adopt a "No Parking 10 PM-6 AM, Seven Days a Week Restriction" on the 1150 Block of Wisconsin from the Alley North of Roosevelt Rd to Fillmore Street, on Both Sides, and Install Signage for Said Limitation
This Motion was approved.

XV. Regular Agenda

- M. [RES 20-232](#) A Resolution Declaring an Emergency Affecting the Public Health through February 16, 2021 Due to the Outbreak of COVID-19 Disease in the State of Illinois
- Village Manager Pavlicek provided an overview and explanation for the benefits and reasons for declaring an emergency affecting the public health as providing the resources to staff to respond to community needs without delay during a national pandemic. Village Manager Pavlicek responded to Board discussion of whether there should be an end date on the proposed resolution for now. Discussion resulted in leaving the resolution as is.
- Village Trustee Boutet shared her opinion that the resolution does not need to include providing the Village Manager with spending authority responsive to the pandemic when spending should be predictable and easy enough to bring to the Village Board for approval.
- It was moved by Village Trustee Andrews and seconded by Village Trustee Boutet to approve a Resolution Declaring an Emergency Affecting the Public Health. A roll call was taken. The motion was approved. The roll call was as follows:

Meeting Minutes

President and Board of Trustees

Monday, November 23, 2020

5:30 PM

Village Hall

I. Call to Order

Village President Abu-Taleb called the meeting to order at 5:30 P.M. He authorized a statement be read providing that the meeting is being held remotely due to COVID-19 restrictions and guidelines and that it is not prudent to have people present at the Village Board's regular meeting location due to public health concerns related to that pandemic.

II. Roll Call

Present: 7 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, Village Trustee Taglia, and Village Trustee Walker-Peddakotla

Absent: 0

III. Agenda Approval

Village Trustee Boutet and Village Trustee Taglia asked that item C be moved from the Consent Agenda to the Regular Agenda.

It was moved by Village Trustee Andrews, seconded by Village Trustee Boutet, to approve the Agenda as amended.

AYES: 7 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, Village Trustee Taglia, and Village Trustee Walker-Peddakotla

NAYS: 0

ABSENT: 0

IV. Non-Agenda Public Comment

Kim Murphy: Kim provided public comment in support of Hit It! Fitness.

Dana Rosales: Dana shared her positive experience with Hit It! Fitness and the positive impact this business continues to have on the Oak Park community.

Sharon Foley: Sharon requested that no sanctions be taken against Constance Contursi at her place of business, Hit It! Fitness located on South Boulevard due to complaints from neighbors of noise.

Jerome Brown: Jerome provided a letter of support for Hit It! Fitness, urging the Village to find a resolution that does not require this business to close.

Village Trustee Moroney asked, what is the benefit of approving demolition? Stephanie responded that they have to complete demolition to start construction. The developers lost the 2020 construction season due to the pandemic. Demolition of the building will take approximately 6-8 weeks to get the building down safely and correctly. We want to move forward with this project with construction starting in Spring 2021.

Village Trustee Moroney also asked if the developers had any plans for the historic pieces of the building? Eugene responded yes, the plan is to have the pieces preserved and displayed on a screen wall.

It was moved by Village Trustee Andrews, seconded by Village Trustee Taglia, that this Ordinance be adopted. The motion was approved. The roll call on the vote was as follows:

AYES: 5 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Buchanan, Village Trustee Moroney, and Village Trustee Taglia

NAYS: 2 - Village Trustee Boutet, and Village Trustee Walker-Peddakotla

ABSENT: 0

[MOT 20-073](#)

A Motion to Concur with the Transportation Commission's Recommendation to Support Staff's Recommendation to Expand the On-Street Parking Permit Zones by Either Adding Spaces Within the Zones' Boundaries or Expanding the Existing Zones' Boundaries as Depicted in the Attached Maps and Direct Staff to Prepare the Necessary Ordinance

Village Manager Pavlicek provided an overview of the motion. Staff recommended and reviewed with the Transportation Commission approval of this motion to expand the parking zones.

Village Trustee Boutet asked if staff was recommending to add parking spaces.

Director Grossman noted that there is an attachment with each zone in its own map. Staff looked at each of the parking zones, made recommendations then presented those recommendations to Transportation Commission. The recommendations allows people to park closer to their apartments.

Village Trustee Boutet inquired about expanded parking on the 700 block of Carpenter.

Director Grossman said, yes. That area would be within Zone Y4. Those individuals are not looking for additional parking on Carpenter. The Village added parking on Grove and Home within that zone.

Village Trustee Andrews mentioned this is a step in the right direction, but this does not solve the problem. He proposed an overnight park-anywhere permit program. This would allow permit holders to park anywhere they want, with consideration to various parking restrictions.

Village Trustee Walker-Peddakotla agreed with Village Trustee Andrews comment that this recommendation does not solve the parking problem. This is an equity issue for our residents. She asked, how do we get to a system where our residents don't pay an undue expense for not having a garage? Village Trustee Walker-Peddakotla will support the staff recommendation, but insisted the Village needs to create something better moving forward. She also wants to review current pricing.

Village Trustee Taglia agrees with this recommendation and also thinks Village Trustee Andrews' proposal should be explored on a trial basis.

Village Trustee Boutet noted that to manage parking in Oak Park is multi-faceted and a tough balance. This is an area that needs to come from staff and those whose expertise is in traffic planning. Village Trustee Andrews' proposal is not a well-developed plan. Village Trustee Boutet agreed with Village Trustee Walker-Peddakotla that this is an equity issue.

Village Trustee Moroney agreed with the recommendation from staff and the Transportation Commission.

Village Trustee Buchanan agreed with expanding zones to accommodate more residents.

Village Trustee Andrews officially moved to have a trial period for his proposal. He recommended to have staff come back to the Village Board with the number of spots to be included in the trial period.

Village Trustee Boutet urged the Village Board not to use the role of Village Trustee to solve problems that staff work to solve.

Village President Abu-Taleb asked Village Trustee Andrews to walk him through his proposal.

Village Trustee Andrews suggested having a secondary overnight parking permit which allows residents to park in any legally designated overnight area.

Village President Abu-Taleb supported Village Trustee Andrews' motion. A roll call was taken on the Village Trustee Andrews' motion: Village Trustee Taglia, yes; Village Trustee Buchanan, yes; Village Trustee Moroney, yes for a 12-month trial period, Village Trustee Walker-Peddakotla, supportive of the general idea but did not agree with the greater cost of permits; Village Trustee Boutet, did not agree with charging more and did not agree the Village Trustee Andrews' proposal without knowing what staff would propose.

It was moved by Village Trustee Andrews, seconded by Village Trustee Moroney, that this Motion be approved. The motion was approved. The roll call on the vote was as follows:

AYES: 7 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, Village Trustee Taglia, and Village Trustee Walker-Peddakotla

NAYS: 0

ABSENT: 0

E. [MOT 20-074](#) **A Motion to Concur with the Transportation Commission's Recommendation to Support Staff's Recommendation to Expand the Number of Available Overnight Passes from 10 to 15 Per Month Between April 1st and October 31st and Direct Staff to Prepare the Necessary Ordinance**

Village Manager Cara provided a brief overview of the Transportation Commission's recommendation to support staff's recommendation to expand the number of available overnight passes from 10 to 15 per month between April 1st and October 31st.

Village Trustee Boutet asked how the dates effect snow removal? Director Grossman responded, Director of Public Works reviewed the proposal and supported the expansion of overnight passes with the caveat that it would not adversely impact snow removal or leaf collection.

Village Trustee Moroney asked if there will be a maximum number overnight passes a person can use annually? Director Grossman confirmed there is a maximum number a person can use annually. 15 maximum passes monthly x 12 months each year = a maximum of 180 overnight passes annually.

Director Grossman mentioned that at times people new to the community will use overnight passes while they determine their long-term overnight parking options. Overnight passes are also used by kids who come home to visit and by residents who store items in their garage. Overnight passes are primarily used for overnight guests.

It was moved by Village Trustee Andrews, seconded by Village Trustee Buchanan, that this Motion be approved. The motion was approved. The roll call on the vote was as follows:

AYES: 7 - Village President Abu-Taleb, Village Trustee Andrews, Village Trustee Boutet, Village Trustee Buchanan, Village Trustee Moroney, Village Trustee Taglia, and Village Trustee Walker-Peddakotla

NAYS: 0

ABSENT: 0

F. [ID 20-324](#) **Presentation of Proposals for Business Community Support for Discussion and Staff Direction continued from November 16, 2020**

Village Trustee Andrews provided a report from the Task Force meeting. The task force decided on the A5 proposal. Village Trustee Boutet and Village Trustee Andrews attended the Business Task Force meeting, but did not vote, only the business owners on the task force. They found that the A5 proposal was more cost effective and provided better timing. The task force will act as the primary stake holder that A5 will work with directly.

Village President Abu-Taleb recommended not to remove staff from this

MEMORANDUM

0121-1
OE3
1/2

Date: January 7, 2021

To: Transportation Commission

From: Mike Koperniak, Staff Liaison
Parking and Traffic Commission M.K.

Re: Reply to Transportation Commission Chair Ron Burke's Inquiry

On January 6th, Transportation Commission Chair Ron Burke sent an email to me inquiring about the following items that he would like discussed and added to the January 12th agenda.

1. Review of Slow Streets results,
2. Neighborhood Greenways Implementation status
3. Village transportation goals discussion.

1. In regards to the Slow Streets results, a link to the Village's downloadable seventy-seven page Slow Streets Pilot Program web survey and comments final results PDF report was emailed to the Transportation Commission members on October 27, 2020. The link is:

<https://www.oak-park.us/sites/default/files/456678891/2020-10-16-slow-streets-survey-final-results.pdf>

Staff currently does not have the capacity to compile and organize the report beyond what can be found via the link.

2. The adopted FY2021 Budget and adopted FY21-25 Capital Plan includes money for bike boulevards. Page 13 of the document is attached and shows the budgeted amounts. Money for 2021 is for constructing the bike boulevards originally recommended for construction by the Commission on Scoville and Ontario. FY2022 includes money for design and construction of additional bike boulevards and staff would again engage the Commission to determine locations/priorities for this 2nd round of construction.

3. Staff and the Commission can discuss a timetable at the next available meeting for the Village transportation goals discussion.

Project: **Bicycle Boulevard Improvements**

Priority Code: **D**

Category: **Infrastructure Improvements**

Description:

Bicycle Boulevards are streets designed to prioritize bicycle travel with infrastructure features that calm and reduce vehicular traffic on neighborhood streets and improve safety at busy intersections. Specific features will be discussed as part of the plan implementation.

Justification:

The Village Bicycle Plan adopted in 2008 established goals of increasing bicycle use and creating a safe and inviting environment for cycling. This Bicycle Boulevard is a means to work towards these goals.

Current Status:

The Bicycle Boulevard System Study was approved by the Village Board on July 20, 2015. The Transportation Commission recommended the first phase of the boulevard system be implemented on Scoville Avenue and on Ontario Street due to its proximity to OPRF. The design of this first phase will be completed in 2020 with construction occurring in 2021 to coordinate with other improvements at OPRF. Future phases are shown for implementation with design and construction in 2022.
